

## Cultural activities carried out by the French Institute of Cambodia

As part of the “Sur le Vif” exhibition, the French Institute of Cambodia offers several activities on the theme of photography.

Whether capturing an intimate portrait, exploring majestic landscapes, or documenting authentic moments, photography reveals the beauty and complexity of the world around us. Photographs allow for countless creative possibilities, providing a dynamic platform for personal or collective expression.

“Sur le Vif” is the perfect opportunity to discover and appreciate the art of photography in all its aspects. This new season features two highlights: from September 26 to November 9, 2024, a retrospective of the works of photographer Mak Remissa will be showcased at the IFC gallery, followed by an exhibition celebrating the fifteenth anniversary of the Photo Phnom Penh festival, from November 21, 2024 to January 15, 2025, for the fifteen years of the Photo Phnom Penh festival.

### Exhibit tour

Through a guided tour of the exhibition “La voix des images,” from September 26 to November 9, visitors will explore five series of photographs by Cambodian photographer Mak Remissa. Mak Remissa presents his vision regarding environmental issues and reveals the fragile balances of natural and social elements. He also works on the memory of the tragic genocide perpetuated by the Khmer Rouge. From November 21 to January 15, 2025, in celebration of the fifteenth anniversary of the Photo Phnom Penh festival, visitors will discover a selection of sixty previously unpublished photographs retracing the fifteen years of history of the festival.
